

Our corporate governance is premised on the principles, described below:

- **Accountability:** Our bylaw stipulates accountability of the Company's Board of Directors to all stockholders in line with the Russian laws and serves as guidance for the Board of Directors in formulating the strategy and administering executive bodies of the Company.
- **Fairness:** The Company is voluntarily committed to protect stockholder rights and enforce equal treatment of all stockholders. The Board of Directors affords all stockholders an opportunity of viable defense if their rights are disregarded.
- **Transparency:** The Company enforces just-in-time disclosure of reliable information regarding all corporate events or actions, including but not limited to its financial position, performance, ownership structure and management, and oversees that any stakeholder has an unhindered access to such information.
- **Responsibility:** The Company recognizes its liability to all stockholders of the Company.

Core goals of corporate governance are: i) crafting of an effective system for protection and efficient disposal of shareholder's resources; ii) reduction of risks that investors are unable to evaluate and unwilling to accept and management of which by investors in the long run shall inevitably result in reduction of firm's investment prospects and share prices.

Its corporate governance practices kept upgraded, the Company keeps its fingers on the pulse of corporate governance

trends evolving in Russia. The Company highlights the importance of the Corporate Governance Code, adopted and enforced by the Central Bank since 2014. Principles and recommendations of the Code set the bar high and serve as a guidemark for further development of corporate governance system by the Company. We also focus hard on regulatory requirements to reflect them in our corporate governance practices.

Assessment of corporate governance quality

In October 2017 the Company adopted the OAO IDGC of Urals' Evaluation of Corporate Governance Efficiency Methodology⁵⁶. The Methodology was prepared pursuant to the Self-evaluation of Corporate Governance Efficiency in State-owned Companies Methodology, adopted by the decree⁵⁷. The Methodology's structure intends to evaluate quality of corporate governance, incl. compliance with principles and recommendations, stated in the Bank of Russia's Corporate Governance Code. In January 2018 the Company's Internal Audit Department has conducted a self-evaluation of FY2017 corporate governance quality in line with the Methodology.

Total evaluation grade for 2017 is 77% of the target value or efficient corporate governance with minor weaknesses, several components/spheres need to be improved.

Striving for better corporate governance

The Company closely monitors the progress of corporate legislation and corporate governance practices in Russia. During 2017 the Company zeroed in on examining corporate governance novelties, principles and recommendations, best-in-class corporate governance practices and procedures; and on analyzing whether the Company could apply them in its corporate governance processes as well as on laying the groundwork before implementing new practices (crafting of process schedules and bylaw drafts, preparation of materials to be filed with the Board of Directors for review, etc.).
